exclusively engineered, complete electrical system

STANDARD EQUIPMENT

- New Tank:
 - Recessed float gauge flange
 - 3" NPT spray fill with 3" riser pipe
 - 2" liquid bypass opening
 - Pump discharge line thru vessel
 - Continuous welded pad & frame
 - 1/2" x 3 1/2" x 6" frame material
 - 16" manway
- ALUMINUM open deck and fenders
- ALUMINUM hose reel & meter cover
- DOT CERTIFIED independent steel bumper
- Rear tow hooks
- Engineered electrical harness with 5-YEAR WARRANTY
- Truck-Lite Supper 88 LED fixtures with vapor-proof wiring
- Powered adjustable worklight
- Main valve - 3" double flanged
- Pump - 3" flanged
- Meter - Neptune or L.C., 2" with ATC & electronic register with in-cab printer
- DOT CERTIFIED 2" Performance Plumbing Package with full port valves
- 3 1/4" Acme fill fitting & 1 3/4" Acme vapor fitting
- 1 1/4" pump out
- 2" automatic bypass
- Magnetel gauge
- Rear mounted controls:
 - PTO/Clutch engagement
 - Main valve
 - Throttle
 - Worklight and compartment light
- Heavy duty PTO

- Hannay single aluminum hose reel with utility rollers
- 125' x 1" liquid hose
- Delivery hose end swivel
- Rego Quick acting minimum loss delivery valve
- Base Engineering ASKWD100A emergency shut-off system
- White Sherwin-Williams "Genesis" acrylic urethane paint finish
- Mud flaps on tank unit
- 20lb fire extinguisher with poly cabinet
- Two aluminum chock blocks with bracket
- DOT safety triangle reflector kit
- Cab mounted first-aid kit
- Placarding to DOT standards

OPTIONAL EQUIPMENT

- "Convertible" aluminum enclosed deck
- Mid-Com registers
- Aluminum roll-up meter cover door
- Rear vision, backup color camera and monitor
- Hannay aluminum twin hose reel
- 125' x 1/2" vapor hose with angle delivery valve
- 150' x 1" liquid hose
- Hose reel "guidemaster"
- 1 1/4" or 2" manual full loop bypass
- Various aluminum tool box sizes
- 2 tone paint scheme for tank unit and/or cab
- Custom Lettering
- Multifunction Base Engineering shut-off
- Motorfuel tank (LPG fueled chassis)
- Stainless steel wheel simulators

Rocket Supply Corporation Once Again Brings Technology To The Propane Industry:

A NEW STATE-OF-THE-ART ELECTRICAL SYSTEM

It capitalizes on the latest electrical technology, utilizing weather tight, secure connections, as well as, sonic splicing and sealing with dual wall heat shrink for long-term system integrity and reliability. The wiring is encased within a color coded braided loom, allowing for moisture and debris clean out. To support the integrity of this new system, **Rocket Supply Corporation** is providing a **5-YEAR WARRANTY** with each professionally installed system.

As an added benefit to the customer, Base Engineering has teamed with Rocket Supply Corporation to integrate their remote shut-off system wiring into the harness. This will provide the end-user a simpler, more reliable harness for long-term satisfaction with less chance for electrical downtime. This new harness will be standard on all new **Rocket Supply Corporation** bobtails manufactured after April 1, 2009. All harnesses will include user friendly, color coded wiring schematics.
